

SSEN Transmission Industry Year Placement

To reach Net Zero by 2050, we're looking for students who can bring big ideas, new skills and innovative thinking to help us build a world that's more sustainable and inclusive for you, your family, the community you live in and for generations to come.

Working as part of our multi-disciplined HVDC team, we have an exciting opportunity for UHI engineering students to support high profile projects, discover how you can apply your degree in the working world, support your local community and inspire young people into STEM.

- 12 months commencing June 2024
- Inverness and Highlands (base location to be discussed on an individual basis)
- Salary of £23,422
- 34 days annual leave
- Opportunity to progress onto our Graduate Programme
- Application deadline 17th March 2024
